

FS215B

Description

The FS215B is a high-performance dual 15" subwoofer designed for small to medium-scale sound reinforcement and fixed installations. With its powerful SPL of 139dB and extended frequency response, it delivers impressive bass in a compact, easy-to-handle format.

Featuring two 15" low-frequency drivers with 3" voice coils, it strikes the perfect balance between speed and depth, offering optimal performance. The smart rigging system allows it to be flown or ground-stacked and is compatible with FS209L and FS210L line array systems.

Crafted from high quality multi-layer birch, the enclosure is coated with a durable polyurethane protection coating for added durability.
